

The MediaScreen is an extra wide, extra tall retractable bannerstand that is perfect when your message needs to be seen from a distance. You can easily create an even larger image by linking two or more displays, thanks to a magnetic connector at the top. For example, three displays linked together will provide an image that is 12 feet wide and 9.5 feet high.

Use the MediaScreen as a backdrop to deliver information at tradeshow, corporate general meetings, press conferences, and in shopping centers. Thanks to the extra height, your message reaches above the competition.

Optional lighting is available to highlight your image.
