

Wall Wrap is a new innovation for home and office décor. No special skills are needed to apply and no mess is generated in the application. It will adhere to virtually any interior wall surface. Any image can be used to create custom wall coverings for your home or spice up your office boardroom with full size images of your products.

Wall Wrap is laminated with a matte finish to protect the image and prevent glare from surrounding lights.

Wall Wrap can be used in stores and restaurants to advertise a recurring special. When the special is over, simply remove the Wall Wrap and store it for future use.
