

Nothing grabs your attention like movement! The Orbit is a high-quality motorized scrolling banner display that puts your message in motion. A continual graphic is looped through the stand, allowing you to display twice the message in the same space as a typical bannerstand. This system is ideal for tradeshow and lobby advertising.

Simply plug into a conventional outlet for a continually moving, scrolling display. A slight pinch or tug on the graphic will automatically reverse the direction.

The Orbit comes with a padded carrying case for easy transportation. Optional lighting is available to highlight your image.

Sizes Available			
24"	36"	42"	50"
*various lengths
